

When: Monday, November 11th, 2022 @ 2:00pm

Where: Start from the trail kiosk at the bottom gate of UNB (Corner of University Avenue and Beaverbrook Street).

Who: Club members, runners, walkers and and the general public are all welcome to participate.

What: For runners, the half Metric Marathon will follow the Marysville loop (13 km) and the full metric (26 km) marathon will include a repeat of loop one.

Walkers are challenged to walk 30 minutes (or less) out, and then back to the start.

(As always for the point series, I will accept any distance covered, run or walk. My secret mathematical formula will be applied to the numbers you provide me.)

Why: On this day of remembrance, to celebrate life in a manner befitting our friend and the founder of the event, Tom Reddon. **And, to collect donations of groceries or cash for a local area Food Bank.**

Social gathering after the event will be at Piccaroons.
