

The Metric Marathon drew a nice sized group of runners on this day of remembrance in Canada. This event, an annual fixture on our running calendar, is our way of celebrating life and remembering those who were important to each of us individually. The family of the event founder, Tom Reddon, were also present at the start of the race and at the social gathering afterwards. Special, limited edition, prizes were presented to Steve Scott, Henny Drost, Mike Melanson, Justin Young, Christine Bateman, and Sonia Ondo. The points awarded in this race have resulted in just a two point difference between the two runners vying for the top spot.
