

2024 Fredericton Marathon, May 10-12.

The Fredericton Marathon weekend, which has become an important fixture in our local running calendar, was **Event #5** of the club's point series. Congratulations to all the club members that participated in this weekend full of running events. And, a special thank you to all those who volunteered and helped to bring it about.

I trolled through the official results pages of the event to compile this table. I realize that certain runners had to run a little extra distance in the 1/2 marathon, due to a marshalling error, and that the time reflected in the results does not account for this extra distance run. I used final position to order the points tally. I also used your chip time result, not the gun time. So if you took longer to get across the start line, you may actually have run faster than some people ahead of you, but still finished behind them in the race. Also, I did not have access to the event's volunteer list, so I may have missed some people there too. Let me know if I have omitted anyone or made any other mistakes.

Event #6 will be the Summer Solstice Hill Climb on June 19th at 17:45 hours, in O'Dell Park.
