

Point Series Event
June 18, 2026
O'Dell Park,

I wasn't able to attend this event this year, but I heard that we still managed to have the hill challenge, despite the rain forecast and the recent warnings about bears in the park. A small, but dedicated group participated in the annual run/walk. The brave souls ran/walked the looping course. And, judging by the fact that there were no breaking news headlines on my social media feeds, and that no new course records were made, we can safely assume that the bears did not make an appearance that day. And, after the run, thanks to several volunteers everyone was treated to a BBQ.
