

July was busy month for running in Fredericton, and in New Brunswick. Our club members attended a lot of different events. I went through a real jumble of results lists looking for how everyone had done. I may have missed some of your running or walking performances. Especially, as I do not know all the new club members yet. So, I apologize if I have missed you. Please let me know. I will amend the points spreadsheet accordingly. And as always virtual results are accepted too.

* People who ran/walked distances other than 5km have their finish times adjusted to their average pace per km, and then applied to a 5 km distance.
